

FORWARD MOVE BY AMERICAN FORCES

INSURGENTS PREPARING FOR THE ADVANCE.

Strengthening Their Position North of Manila—Otis' Brigade Struck Tents and a General Advance is Expected—Prisoners Say Rebels Will Make a Most Decisive Stand.

Manila, March 24.—[Special]—The insurgents are strengthening their position north of Manila and are preparing for an advance by the American forces, which is regarded as imminent. The English refugees, who arrived here yesterday from the northern part of Luzon, express surprise to find that Manila is in existence. They say the insurgents in the north alleged that the city is in ruins and the flower of the American army destroyed.

Sergeant Copen and a private of the Twentieth were killed in a skirmish with the rebels at Calocan today.

A Forward Movement Begun. Manila, March 24.—[Special]—A forward movement by the Americans has begun. General Otis' brigade struck tents this morning and a general advance is expected at any time now.

The rebels are heavily massed in trenches opposite our lines on the north. This probably comes from the belief on the part of Aguinaldo, that the blow will be struck at Malolos.

Prisoners brought in say that the rebels will make the most decided stand they have yet taken.

The advance of our troops can only be step by step, with resistance to be expected at every trench.

To Suppress the Rebellion. New York, March 24.—[Special]—It is learned today that it is the intention of the government to send six additional regiments of regulars to the Philippines to assist in the suppressing of the rebellion.

The regiments selected are the Sixth artillery, Fort McHenry, N. D., Sixth infantry, Fort San Houston, Tex.; Ninth infantry, San Francisco; Thirtieth infantry, New York harbor; Sixteenth infantry, doing duty in Missouri, Kansas, Nebraska; Twenty-first infantry, Plattsburg, N. Y.

If these plans are carried out, ninety-eight posts will be deserted and the fact that an Indian uprising is still possible, the absence of troops is likely to cause alarm in the west.

Manila, March 24.—[Special]—The Second Oregon, Twenty-second infantry and troops of Wheaton's brigade are concentrating near Calocan in the rear of Otis' front.

Reports from Negros say all is quiet there.

Decisive Engagement Very Soon. Manila, March 25.—It is expected that a decisive engagement will occur very soon, possibly today, between the Americans and the insurgents. On every hand there are evidences of busy preparations to strike a final and crushing blow.

Regiments are being shifted rapidly and placed at new points. The arrival of reinforcements on the transports Grant and Sherman, with the Sheridan due in a few days, has given new courage to the American forces.

Telegraph and cable communication has been established over this and the other islands, and Gen. Otis can now keep the situation well in hand.

The feeling among the natives at Manila is that of submission and many express a desire to have the Americans administer a crushing blow to Aguinaldo.

rebuffs he has received from the British government, whose sympathy for the Filipinos he endeavored vainly to arouse. He expects better treatment at the hands of the French. Agoncillo's chief object is to obtain arms and ammunition, for which he made unsuccessful overtures to several London and Birmingham firms. He believes he will be able to obtain the supplies he seeks in France. He intends to charter a vessel at Brest or St. Malo to transport his purchases, to the Philippines.

SPAIN IS DEFIANT. Offers Aguinaldo Money for His Prisoners in Face of Our Protest. Madrid, March 24.—Notwithstanding the fact that Gen. Otis has refused to sanction negotiations between the Spaniards and Filipinos for the ransom of the Spanish prisoners held by the latter, on the ground that the money would be used to aid the insurgents against the Americans, the Spanish government has offered Aguinaldo 5,000 pesetas for the release of each Spanish officer, 500 pesetas for each soldier, and 2,500 pesetas for each civilian.

Premier Silvela said Thursday that the relations of Spain with the United States were of the most friendly character. He expected that when the ratifications of the peace treaty had been exchanged normal relations would be at once re-established. The United States was now ready to pay the indemnity required by the treaty.

Senor Silvela added that he had no fear of Carlist complications.

Otis Preparing to Advance. Manila, March 24.—The Oregon regiment, the Twenty-second infantry, and the troops of Gen. Wheaton's brigade are concentrated at Calocan in the rear of Gen. Otis' front. Army troops now command Malabon, and preparations are making, but no movement was begun Thursday. Wednesday night John Muhr and Sergt. Cohen of the Kansas volunteers were killed in a skirmish.

WITNESS NOTICED AN ODOR OF ACID

SAID IT CAME FROM MRS. SHARP'S CLOTHING.

Was the Morning After Assault on Mr. Lynch—Willie Murray and Miss Schultz Give Damaging Testimony—Complaining Witness on the Stand Tomorrow—Other State News.

Fond du Lac, Wis., March 24.—The second day in the trial of Rose Sharp started in with an admonition from Judge Kerwan to the sheriff to keep the main aisle in the court room clear of people. The crowd came early, and when the court opened the aisles were blocked. There was a large number of women present, residents of Fond du Lac, the surrounding towns and from Oconto. Many of the latter are witnesses, but many are also here as spectators, and out of courtesy they have been given reserved seats in the front rows.

P. H. Lynch, the victim of the assault, on Dec. 1, 1897, came into the court room late, and was unable to sit through the morning session. He is unable to distinguish objects except as shadowy outlines, and has to be led about by an attendant.

The smile that has illuminated the face of Rose Sharp faded into seriousness this afternoon when Willie Murray, 15 years old, took the stand and testified that he was standing within ten feet of Mr. Lynch on the night of the assault and saw a woman in black bump into him and then hurry down the street and enter the common hallway used to reach Mrs. Sharp's printing office and Mrs. Mibury's millinery store.

Following this came the testimony of Miss Jennie Hall, an employee of the millinery store, who said she smelt the odors of carbolic acid on Mrs. Sharp when she came into the store the next morning and asked her to go up stairs and make a fire for her.

Gen. Bragg worked for fully half an hour trying to break down the testimony of the witness without success.

The assembly passed the anti-pass bill, with slight amendments. It now remains for the senate to concur in these amendments, when, with the governor's signature, it will become a law. This measure shuts off passes immediately, but a resolution to submit to the people a constitutional amendment against passes is pending. A conference committee of the two houses is attempting to bring about united action on the resolution, making the use of passes by public officials punishable by forfeiture of office. The assembly adopted this amendment and the senate refused to concur.

The senate bill requiring circuit and superior court judges to make affidavit that all cases submitted to them more than ninety days previously have been decided before drawing their salary went to third reading in the assembly.

The marriage license bill passed the lower house of the legislature by a big majority without debate. This practically insures its passage by the senate by a fair majority.

TRACHEROUS PERCH. Little Birds Electrocuted While Billing and Cooing.

If birds only knew better they wouldn't do their love making on electric transmission wires. The imprudence of that procedure has been frequently proved, notably last year in the case of the two owls and the two eagles which were cremated on the lines of a long-distance transmission circuit in California. It will be remembered that by a strange element of selectiveness in the action of the current the owls were unusually favored, being killed without the slightest disfigurement, and falling to the ground with hardly a feather ruffled, while the greater part of the two eagles went up in blue smoke. A similar fate has befallen a pair of fowls which sought the shelter of a power-house in Canada for their evening roost. The power company which supplies the city of Three Rivers generates its current sixteen miles away and transmits it to the city at a pressure of 12,000 volts. A few evenings ago, just as dusk was setting in, and the heavy load that was coming on to feed the city lights began to show on the amperemeters, the circuit-breakers flew, the fuses blew, and the lights were out. The lights soon started up again, and there was no further trouble. The following day the electrician went on a tour of investigation, and entering the substation at Three Rivers he noticed, in a pronounced form, the smell of a badly conducted restaurant. Looking around he found the cause of the previous night's interruption. A window had been broken in the station, and through this two chickens had slipped inside and roosted on the bare copper conductors. As Chanticleer kissed Biddie "good-night" he completed the circuit; the lovers were electrocuted, and the lights were put out.—Los Angeles Times.

Undermuslins.

Such a difference in them. Women like dainty garments—they also remember how they wear. We haven't talked as much about our undermuslins as some other things but perhaps it's because we sell so much anyway.

At 25c—Drawers for women and children; Corset Covers, values that are readily understood.

At 50c—Gowns, Skirts, Drawers, the kind that make customers.

At \$1.00—Gowns that you'd pay \$1.25 for about as quick. We show dainty Skirts up to \$6.00.

Petticoats.

Greatest sale we ever had on them. Largest stock we ever carried. \$1.00 for a black like-silk with ruffles, well made. \$2.00 for metallic stripe line black saten rare value. \$7.00 for beautiful fine all taffeta skirts, corded, wide facing—all colors. McCall Bazar Patterns—All 10c and 15c—None higher.

Boub's.
ALE THAT IS HEALTHFUL
The main difference between good and bad Ale is in the after effects—not the taste. You discover part of that difference. You notice for one thing that pure all Boub's ale—doesn't make you bilious. But the main difference goes unnoticed.
Pure Ale is Good.
for you; bad ale is unhealthful. Either effect is so gradual you do not know what caused them. Two things are certain: First, pure ale is the right ale—purity is more important than you think. Second, Boub's Ale is pure Ale. People who drink it say it is far ahead of any and equal to famous Bass Ale. Case 3 dozen plus delivered, \$2.50.

WOMEN OF FREED CUBA.

Their Social Life on the Tropical Island.

The social life of Cuba will be a subject of interest to many prospective travelers to that lovely land of tropical warmth and plenty. In the higher walks of Cuban society ladies never appear anywhere in public without an escort, either male or female. If a lady be accompanied by a man, he must be a husband, brother or near relative; otherwise the judgment passed upon her will be even more harsh than if she had no escort at all. It is further to be noted that no matter how well one may know a Cuban or resident Spaniard in a business or social way, he will not be invited to meet the ladies of the family until his character, history and position in society are thoroughly known. Even then he will never be permitted to see the unmarried women alone. Letters of introduction are not readily given to men to be presented to ladies, for the reason that he who gives them, though they be couched in most reserved language, considers that he practically guarantees every future act of the recipient. With the Cubans Sunday is a feast day, given up to social enjoyments after the religious duties of the morning have been performed. Certain saints' days, on the other hand, must be seriously observed, and functions which would be permissible on the Sabbath would be severely reprobated on such anniversaries. It is on Sunday that the cock fights and bull fights take place. American women may be surprised to find that Cuban gentlemen smoke anywhere without asking permission of the ladies, either at the cafes, hotels, residences or even in the ordinary street cars. The only restriction on the privilege of smoking is imposed at the theaters, and even there one may indulge in it in the corridors. Another custom not peculiar to Cuba, being followed everywhere on the continent of Europe, although not in the United Kingdom, is that at public tables in the cafes or hotels a well-bred Cuban never takes a seat without asking permission, perhaps simply by a sort of interrogative bow, of those who may be already seated there. A similar salutation is made upon taking leave. Of social visiting there is a great deal among both Spaniards and Cubans, but the private dinners and balls are comparatively few. The American visitor calling upon a Cuban family should never disturb the cane-seated chairs which are ranged with the greatest regularity along the walls of the reception room. Finally, the color line is not so closely drawn in Cuba as it is in the United States and education, wealth and personal worth generally determine a native's position, without regard to the possible presence of colored blood in his veins.

A BEGGARLY BEGINNING.

Miss Maude L. Fritz, daughter of Mr. and Mrs. John Fritz of Kansas City, and James L. Flood, the millionaire son of the bonanza king, James Flood, were married quietly the other day at the home of the bride's parents. The ceremony took place at noon, and was a quiet one, owing to illness in the bride's family. Mr. and Mrs. Flood will begin housekeeping with a modest competence of \$5,000,000 to keep the wolf from the door. Mrs. Flood has also a \$100,000 diamond necklace which her husband gave her for a wedding present, and if she wants anything else all she has to do is to ask for it. The marriage is expected to result in Mr. Flood's giving up the quiet joys of his big California ranch and settling in New York, for his new wife finds the glittering prospect of society life in a large city very attractive. Mrs. Flood is tall, rather stout, 20 years old, and a striking blonde of good figure and graceful carriage. Her sister, the first Mrs. Flood, died a year ago. Mr. Flood is tall and slim, with hair and mustache rapidly turning gray. He appears a good ten years older than his actual age of 40 years. His generosity

MRS. JAMES L. FLOOD is great, and he has been enabled to gratify it by the enormous wealth left to him by his father.

More British Doubt.

It is now beyond doubt that Don Carlos is encouraged and supported in his insurrectionary schemes by English bankers, who are but the representatives of the British government. In return for this help Carlos has undertaken to allow England to establish herself in the Balearic and Canary islands. To make the Mediterranean an English lake by seizing the Spanish islands and then the coast of Morocco is a dream which must often haunt the sleep of Lord Salisbury.—Bordeaux la Gironde.

Miners Elect Their Officers.

Terre Haute, Ind., March 24.—The miners' convention Thursday voted most of its time to the election of officers, and the balloting resulted in the election of W. D. Van Horn of this city president; T. T. Roberts, Rosedale, vice president, and J. H. Kennedy of this city secretary and treasurer. It was decided to commence a vigorous campaign in the southern part of the state with a view to organizing the field in that locality. The scale committee was unable to make its complete report and was given more time in which to prepare it.

Paving Assessment Invalid.

Dubuque, Iowa, March 24.—Judge Matthews, in overruling the demurrer of the city in a suit to restrain assessments for paving, followed the recent decision of the Supreme court against such assessments, because they were not levied according to the benefits received. The judge urges a special session of the legislature to enact remedial legislation. Unless this is done many Iowa cities will be swamped with suits, involving millions of dollars.

Threats to Lynch a Kidnaper.

Painesville, O., March 24.—If threats are carried out there may be an attempt to lynch Mrs. Ann Ingersoll, the abductor of the Lapiner child from Chicago. Since the fact was made public that proceedings had been commenced to place Mrs. Ingersoll in an asylum, excitement has been running high, and a bitter feeling exists against the abductors. All that is needed to start a raid on the jail is a leader.

Search for the Fire Victims.

New York, March 24.—Nineteen dead and thirty-four missing is the record so far of the Windsor hotel fire on Friday last. One more body was found Thursday. This brings the list of unknown dead to nine. The remains consist simply of a portion of a spinal column, with some of the ribs attached, a piece of the skull and some small bones and charred flesh. Identification in this case, as in the large majority of the other bodies at the morgue, will be impossible. It is not likely that any of the bodies yet to be found will be recognizable.

Nerves, stomach and liver are all aided by "Orangeine"; hence its quick and safe action in colds and headaches.

Town Is Swept by Cyclone.

Nashville, Tenn., March 24.—The little town of Liberty, in Dekalb county, is almost wiped off the map. A cyclone swept over it Wednesday night, wrenching trees from their roots and felling houses in all directions. The Christian church, a handsome brick structure, was blown to pieces and people were panic stricken. Damage to property in the storm's path is enormous, but no fatalities are reported.

Gold from the Klondike.

Seattle, Wash., March 24.—The steamer Laurada, which recently arrived from the north, brought \$150,000 from the Klondike, being the first shipment of treasure from there this year. The fact of the gold dust being on the vessel has not been made public before.

after you have considered that you ought not to drink coffee. It is not a medicine, but doctor order it, because it is healthful, invigorating and appetizing. It is made from pure grains and has that rich, brown color and tastes like the finest grades of coffee and costs one-fourth as much. Children like it and thrive on it because it is a genuine food drink containing nothing but nourishment. Ask your grocer for Grain-O, the new food drink. It is and is.

A HUNDRED REASONS

Can be given why Stuart's Dyspepsia Tablets are the best and most effectual cure for every form of indigestion. They are in tablet form, which retains their good qualities indefinitely, while liquid preparations become stale and useless with age.

They are convenient, can be carried in the pocket and taken when needed. They are pleasant to take.

After each meal dissolve one or two of them in the mouth, and mingling with the food, they constitute a perfect digestive, absolutely safe for the most sensitive stomach.

They digest the food before it has time to ferment, thus preventing the formation of gas and keeping the food pure and free from the poisonous products of fermentation, half digested food.

Stuart's Dyspepsia Tablets is the only remedy designed especially for the cure of stomach troubles and nothing else.

One disease, one remedy; the successful physician of today is the specialist, the successful medicine is the medicine prepared especially for one disease.

Stuart's Dyspepsia Tablets make the complexion clear by keeping the blood pure.

They increase flesh by digesting flesh forming foods.

A whole package taken at one time would hurt one, but would simply be a waste of good material.

Over six thousand men and women in the state of Michigan alone, have been cured of indigestion and dyspepsia by the use of Stuart's Dyspepsia Tablets.

THE DAMAGE SUIT BILL.

The Madison Journal says: "There was a debate over bill 350 A, Wheeler, which provides that no suit for damage shall lie for injury due to accumulations of snow and ice."

Mr. Overbeck and Mr. Dodge opposed it. Col. Rusk also; he said it would tolerate the greatest negligence on the part of property owner and municipality. Mr. Vandercok moved to send the bill to the judiciary committee; Mr. Wheeler insisted there was nothing more for that committee to do; and that the bill should go to court. Referred to judiciary. Mr. Wheeler in championing the bill cited cases of an absurd nature pressed under the present law. In one case verdict of \$1,500 were twice secured on the ground that the plaintiff fell by reason of a heel-mark in ice.

This bill is one that Janesville people are greatly interested in, and the report of the "judiciary committee lawyers" will be awaited with some impatience.

If they do, I am not one to shrink my duty in holding them against the world."

pledges in the same snappy way that it supported the democrats before it, became an independent paper. The Journal is now working along the line of the "greatest good for the greatest number," regardless of politics, and evidently thinks Governor Scofield's course entitles him to the aid of all good citizens.

The committee on fish and game has decided that the people do not favor the abolishing of spring shooting, and that provision will doubtless be left out of the new law.

The committee was literally swamped with petitions favoring spring shooting, while very few petitions, were drawn in favor of the change.

Governor Scofield should have the support of every republican voter and every republican newspaper in his efforts to equalize taxation.

There is no reason why anyone should hang back, yet a few voters and a few newspapers are doing that same thing.

OPINION RENDERED ON BARBER BILL

IT'S NOT CONSTITUTIONAL, SO SAY MIDWAUKEE LAWYERS

To Add Force to Their Argument They Say Regulations Could Be Safely Trusted to the State Board of Health—Violates the Fourteenth Amendment.

Janesville barbers are disappointed. They had an idea that the number of three-dollars a-week journeyman would be reduced by the new license law. An advance in wages and an improvement in the general situation was expected.

The license bill provided that all barbers must be examined by a state board before they could shave or cut hair. It was framed by State Organizer M. E. Whittaker, of this city, and was introduced by Assemblyman Wheeler at the request of the Janesville Federation of Labor.

The firm of Winkler, Flanders, Smith, Bottum & Vilas of Milwaukee, have rendered an opinion, however, in which they point out that the Fourteenth amendment to the constitution of the United States prohibits a state from making or enforcing any law which shall abridge the privileges of immunities of citizens.

The state, however, in its police power, may impose restrictions upon any calling so related to the health, morals or safety of the people as to require regulations.

The business of shaving the face and cutting the hair is an ordinary occupation, to excel in which requires only moderate intelligence and experience, and habits of care.

Any danger to health is entirely incidental and collateral to the business, proper and can be prevented without necessarily restricting the right of the individual to pursue the calling itself. In the second place, the examining board has unlimited power in imposing examinations, which is not at all fair. They may ask such questions that no one without a technical knowledge of dermal and epidermal diseases could answer them.

It would be more practical, they maintain, to place all the barber shops in the state under the supervision of the board of health, and a simple regulation, requiring barbers to dip their tools in an antiseptic wash, would be more effectual to prevent the germination of disease than a requirement that all barbers should have a medical examination.

In view of these facts the attorneys quoted have declared the bill unconstitutional because it tends to abridge the privileges of citizens of the United States, and may deny to persons within the jurisdiction of the state equal protection of the laws.

MINSTRELS BEGIN REHEARSAL

Every Indication That the Golf Club Show is a Winner.

The first gathering of the St. Louis Golf club minstrels took place last evening in the Caledonian rooms. The talented company afterwards repaired to Mrs. J. F. Sweeney's parlors at the Grand hotel where the work was informally laid out. There will be no serious ensemble work; however, until next week, this week being devoted to individual preparation.

There is every indication that the Golf club minstrels will give the show of the season, as the membership list of sixty includes the cream of vocal and histrionic talent in Janesville society. As they say in the circus business, "Watch for the big bills."

All who can be present are urged to attend the rehearsal in the Caledonian rooms this evening.

H. D. MCKINNEY WAS PRESENT

Attends the Meeting of the National Horse Breeders.

Delegates were present from New York, Ohio, Indiana, Iowa, Illinois and Wisconsin. The principal address of the day was by President F. J. Berry, of Chicago.

At the session held this morning Mr. McKinney read a most interesting paper.

This afternoon the members went to the stock yards to inspect the horses being sold on the market.

HOLD IMPRESSIVE SERVICES

Program On Palm Sunday at the Local Catholic Churches.

At St. Patrick's and St. Mary's Catholic churches next Sunday the services will be particularly solemn. Palm Sunday is one of the greatest days in the ecclesiastical calendar, and great palm branches are blessed with all the dignity that the Roman ritual allows.

Special music has been prepared, and the services will undoubtedly be most impressive. Extra preparations are also being made at the other local churches, many of which will be beautiful by a lavish display of flowers.

ARRIVED SAFE IN ENGLAND

Cablegram Received Here From Mr. and Mrs. Henry Flower Martyn.

From Southampton, England, yesterday came a cablegram to Charles B. Withington, of this city, announcing the safe arrival of his daughter, Mrs. Henry Flower Martyn, who, in company with her husband, sailed from New York on March 15, aboard the liner St. Louis.

The cablegram, of course, was brief, but was sufficiently worded so as to indicate that their journey was a most pleasant one.

Mr. and Mrs. Norman Waite Church are in Toledo, O., having had an extended wedding trip to Chicago, St. Louis, New Orleans and Florida.

Our large ad. another page tells of new laces for spring fancy work. It is of interest to ladies who are planning on doing fancy work. Bort, Bailey & Co.

Chicago Live Stock Markets.

Chicago, March 23.—Values for cattle held without much further decline today, though the run was quite liberal. Some choice hogs sold 2 1/2c higher, but the bulk close to Wednesday's prices, packers buying late at about the same average cost. Sheep sold 5@10c lower and late sales of lambs were 10@15c off, though many sales of choice lambs were made early up to the high prices paid the day before or as high as any have sold this season. Receipts were estimated at 11,000 cattle, 26,000 hogs and 18,000 sheep. Later trade had rather weak tone all along the line, with some offerings of fair quality still dragging in first hands.

MCKINLEY AND HOBART AGAIN.

Report That Party Managers Will Renominate the Old Ticket.

New York, March 24.—A dispatch to the World from Thomasville, Ga., says:

"What has been commonly believed for many months is now authoritatively confirmed. If Senator Hanna and all powerful administration machinery can control the next republican convention, and from the present outlook they seem to be dominant, McKinley and Hobart will be nominated for the office of president and vice president respectively.

"It will be McKinley and Hobart or nothing. If the McKinleyites nominate their candidate they will also be instructed to insist on the renomination of Garrett A. Hobart."

Indiana Overrun by Trusts.

Indianapolis, Ind., March 24.—Inquiry shows that within the last three months all the great manufacturing establishments of Indiana, particularly those in the natural gas district, have entered trusts or are about to do so. The negotiations by which the tin plate mills in the state enter the new organization of tin plate companies are about closed. The plate glass manufacturers have all gone into one organization, and on April 1 the bottle manufacturers in the gas district, of which there are many, will become members of a trust. Nearly all the manufacturers of iron have also ceased to be independent.

New Treaty with Mexico.

Washington, March 24.—The authorities here are looking forward hopefully to the meeting of the Mexican congress next month, when the new extradition treaty, already ratified by the United States senate, will be ratified by the Mexican senate. Although the treaty is still held in secret, one provision is that it shall be retroactive, covering crimes committed during the present interim. This provision, it is said, will terminate any brief asylum offenders may enjoy up to the time the Mexican senate ratifies the treaty.

The Iowa to Go to Manila.

San Francisco, Cal., March 24.—The battleship Iowa will at once be taken to the Union iron works, where she will remain about six weeks while being repaired. Her boilers will be retubed and her cylinders overhauled. It is understood that she will then go to Port Orchard to be docked and have big keels put on preparatory to going to Manila to relieve the Oregon, which may come home to be docked.

Hanover Is Destroyed.

Lexington, Ky., March 24.—The famous American thoroughbred stallion Hanover, 14 years old, by Hindoo, dam Bourbon Belle, was put to death Thursday by cholera. Gangrene of the left forefoot, the result of killing of the nerves in it while racing, rendered the destruction of the horse necessary.

Fear Floods Out West.

San Francisco, Cal., March 24.—Practically without cessation it has been raining throughout the northern part of California since last Sunday morning. All fears of a drouth have long since been dispelled, but in some sections there are now serious apprehensions of prospective floods.

Washington, March 24.—A plan for the return to the United States by April 23 of all the volunteer troops now in Cuba is being prepared in the office of the quartermaster-general. At least twelve of those regiments are expected to be in the United States by the first of April. To facilitate their arrival the quartermaster-general has made special arrangements for water transportation from Havana and other points in Cuba.

This remedy is intended especially for coughs, colds, croup, whooping cough and influenza. It has become famous for its cures of these diseases, over a large part of the civilized world. The most flattering testimonials have been received, giving account of its good works; of the aggravating and persistent coughs it has cured; of severe colds that have yielded promptly to its soothing effects, and of the dangerous attacks of croup it has cured, often saving the life of the child. The extensive use of it for whooping cough has shown that it robs that disease of all dangerous consequences. Sold by People's Drug Co.

Gains in the Open Air.

Thomasville, Ga., March 24.—President McKinley spent nearly all day Thursday in the open air, as did Vice-President Hobart. This outdoor life in a mild and dry climate is doing much to tone up the system of each and they show an improved state of health. This afternoon the party leaves here for Tallahassee, Fla. Monday will probably find the president started on his return journey to Washington, the vice-president and Senator Hanna remaining here.

I have been afflicted with rheumatism for fourteen years and nothing seemed to give any relief. I was able to be around all the time, but constantly suffering. I had tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did, and was immediately relieved and in a short time cured. I am happy to say that it has not since returned.—Josh. Edgar, Germantown, Cal. For sale by People's Drug Co.

LATE NEWS BY TELEGRAPH.

RACE FEUDS IN THE SOUTH.

Lynching of Negroes in Arkansas and Mississippi.

BLACKS GIVE PROVOCATION.

Prominent White Citizens Fired On Without Cause—Little River County, Ark., and Sharkey County, Miss., the Scene of the Killings.

Little Rock, Ark., March 24.—A special received in this city last night from Texarkana says that seven negroes have been lynched by citizens of Little River county. Since the lynching of "General" Duckett last Wednesday for the murder of James Stockton, a wealthy planter of Little River county, the blacks had planned a race war.

One negro, Joe Jones, remarked that Stockton should have been murdered sooner. He was taken to the woods and whipped, as was also John Johnson. Other negroes made threats, but nothing occurred, until Wednesday, when the dead bodies were found hanging to trees just across Red river from the Stockton farm in Bowie county, Texas. The place where the trouble lies many miles from any town, and it is very hard to obtain any details, as the people are very reticent about giving out news.

The negroes are feeling from the district. Thursday three wagons full arrived at Texarkana, having crossed Red river at index.

Take Prisoners from Sheriff.

New Orleans, La., March 24.—C. B. Reed, Minor Wilson and Willis Boyd, three negroes, have been lynched in Yazoo county, Mississippi, by a mob. They were taken from an officer who was conveying them to the Sharkey county jail to answer for their participation in the race disturbance in that county. The lynching occurred in a remote part, and has only just leaked out, although it took place in the early part of the week.

It was decided that hereafter any state in which there are 10,000 members in the order can have a conventional camp with its own officers.

Springfield, Ill., March 24.—Following is the gist of the routine doings in the legislature Thursday:

The senate passed Berry bill giving superintendent of insurance instead of attorney general power to prosecute suits under insurance laws; also Berry bill for incorporation of casualty insurance companies; also Baxter bill allowing Atchison, Topeka and Santa Fe railroad to acquire title to Chicago and Santa Fe line; also Case juvenile court bill. Sent to third reading committee bill revising game laws; also committee bill regulating practice of medicine, amended as recommended by state board of health; also Sullivan bill providing superior court judges be elected at regular elections.

The house passed Searcy bill for creation of free employment offices in cities of over 50,000, vote being 103 to 30. Sent to third reading and made special order for next Wednesday. Humphrey senate annexation bill specially applicable to town of Cicero. Also sent to third reading bill to protect owners of milk cans, bottles, kegs, casks, etc.; also Brown bill to repeal gas frontage act, making it special order for next Wednesday. Sent to second reading Herron bill repealing warehouse law of 1897; also bill revising anti-trust law; also Erickson bill reducing price of gas. Passed Mansfield bill revising state board of arbitration law. Sent to third reading Hurst bill for appointment of art commission in Chicago; also senate bill giving canal commissioners power to dispose of canal lands and water power. Received bill by Mr. Harris to prohibit use of national flag for advertising purposes; also one by Mr. Mueller to increase salaries of judges and state's attorney of Cook county to \$10,000.

John.—If you were a woman, you'd know as I know, and all other women know, that Rocky Mountain tea is the greatest blessing women ever had.

Mr. Sherman Improving.

Santiago, Cuba, March 24.—Mr. Sherman's condition is improved, and he sat up for a short time Thursday afternoon. The doctors attending him are hopeful, and say that he is slowly recovering. It is expected that he will be transferred to the Chicago hospital today.

Look out for dishonest people who try to imitate and counterfeit it. It's their endorsement of a good article. Worthless goods are not imitated. Get De Witt's Witch Hazel Salve. John W. Gates' Trip Abroad.

New York, March 24.—The object of the trip abroad of John W. Gates, president of the American Steel and Wire company, is to effect a combination with foreign makers of wire products on the price of the output. Mr. Gates thinks he will have little or no difficulty in arranging prices and perfecting an international agreement.

New College for Chicago.

Naperville, Ill., March 24.—At the annual conference of the United Evangelical church here Thursday T. L. Haines of Chicago advocated the building of a theological seminary and college, and advocated its erection in Chicago. Several of the clergymen present also spoke along the same lines, and the statement was made that \$25,000 has already been promised toward the cost of the building.

Before the discovery of One Minute Cough Cure, ministers were greatly disturbed by coughing congregations. No excuse for it now. People's Drug Co.

More Troops Land at Manila.

Manila, March 24.—The Third United States Infantry and a battalion of the Seventeenth were disembarked Thursday. The men are in excellent condition and fit to take the field at once.

Ask German Protectorate.

Berlin, March 24.—The Lokal Anzeiger publishes a petition from the Germans in Samoa, addressed to Chancellor Hohenlohe. The petitioners declare that it will henceforth be impossible for them to recognize the authority of Chief Justice Chambers. They ask if the German government cannot annul the treaty, and declare a German protectorate over the islands, or at least accord to Germans complete equality of privilege and compel the authorities in Samoa the partition of the islands.

WILL FIGHT COMBINATIONS.

Federal Government Has Not Abandoned the Contest.

SITUATION IS EXPLAINED.

The Position Taken by Attorney-General Griggs May Have Been Misunderstood—Important Test Case Is Now Before the Supreme Court.

Washington, March 24.—Attorney-General Griggs' letter to a Philadelphia correspondent on federal control of trusts does not by any means indicate that the government has abandoned the contest. There is little comfort for the trusts in the opinion.

If the supreme court upholds the decision of the lower court in the Addy-on Pipe and Steel company, vigorous prosecution of trusts will begin.

In discussing the attorney-general's letter one of the department officials said the attorney-general only referred to trusts which confine their operations to one state, manufacture their product there, fix their prices, and sell their goods at the price fixed.

If a corporation organizes branches in several states and seeks to control products of a certain class, and endeavors to crush out of existence other concerns which will not join it, this is considered a violation of the Sherman anti-trust law, and offenders can and will be prosecuted to the full extent of that law.

"If the department of justice is upheld by the supreme court next month in the case of the Addy-on Pipe and Steel company," said Solicitor-General Richards, who has charge of the prosecutions under the anti-trust law, "the department will begin active proceedings against other industrial trusts in restraint of trade. The reluctance of the department in inaugurating prosecutions at the present time is due to the many points involved in this case, which, if interpreted as being against the provisions of the anti-trust law, would enable the department to institute suits without fear of ultimate reversal."

This case will be decided in April, and every effort will be made to have the Supreme court sustain the lower court.

Save Money On Your Baking Powder

We have secured a pure Cream Tartar Baking Powder, put up expressly
for us, guaranteed to be equal in every way to the powders that are both high
in reputation and price, that will sell at

25 Cents Per Pound.

It has taken us some time to perfect arrangements for this powder. We
wanted an article that we knew to be equal in every other way to the best—
one that we could guarantee with all safety, and we finally secured it. There
is a state law, as you know, that requires all adulterated baking powders to
have the ingredients printed on the label.

Our Pure Cream Tartar Powder

is pure and therefore does not require a label. We want you to realize
thoroughly the fact that you save 15 to 20c on each can of our Pure Cream
Tartar Powder, over the high priced articles, and the quality is absolutely
equal to the best.
